EDUCATION

- Aditya College of Engineering & Technologies** Surampalem, AP, India
Bachelor of Technology - AI & ML; CGPA: 7.81
Courses: Data Visualization, DevOps, Information Retrieval System, Deep Learning, AI, ML
July 2024 - April 2027
- Aditya College of Engineering & Technologies** Surampalem, AP, India
Diploma - Communication & Computer Networking; Percentage: 89.7
Courses: Operating Systems, Data Structures, Networking, Databases, Wireless Networking, High Speed Networking, Cryptography
Network Security
October 2021 - April 2024

SKILLS SUMMARY

- Languages:** Python, PHP, C, C++, JavaScript, SQL, Shell Scripting, JAVA, Typescript, HTML, CSS,
- Frameworks:** React, Vite, Lucide React, Framer Motion, Flutter, NodeJS, TailwindCSS, Bootstrap
- AI & Algorithms:** NLP, R-CNN, YOLO, OpenCV, Pandas, NumPy, Tensorflow, Keras, DSA, CNN, CLIP, DINO, SAM, COCO, CVAT
- Backend & APIs:** REST APIs, Node.js, Express Concepts, proxy setup in vite for backend
- Platforms:** Kali Linux, Windows, AWS, Firebase, MongoDB, Firestore
- Tools & Workflow:** Git, npm, Browser DevTools, VSCode, Roboflow, Figma, Jupyter Notebook, n8n, PhpStorm
- Soft Skills:** Leadership: Led Workshops, Event Management, Writing, Public Speaking, Time Management

EXPERIENCE

- 90Days summer Internship - Akuro Technologies (Link)** Offline
Designer Head (Full-time) *May 26, 2025 - August 23, 2025*
 - Discussion Forum Upgrades:** Restructured the UI of E-commerce resulting in UX about to 70%.
 - 3D Printing:** Designed 3D elements using TinkerCad and managed printers & also learnt Hardware Soldering
 - IoT devices:** Integrated Google Assistant & Alexa in Smart Home automation devices using APIs
- Ghostcoder(college community) (Link) core Team member** Remote
Instructor (Part-time, Contractual) *October 2024 - Present*
 - Blog writer:** Authored 50+ blogs on backend Development using AI tools
 - Guiding:** Mentored peers on key concepts to build exposure.

PROJECTS

- E-Commerce Platform project:** Designed and executed a fully functional e-commerce platform from the ground up using the MERN stack, integrating Razorpay for seamless payment processing; achieved a 25% increase in transaction speed and user satisfaction. Tech: MERN stack, Firebase, Firestore DB, Typescript, Tailwind CSS.
- Hospital Landing page Link :** Developed within 72hrs. Designed using MERN stack (React Typescript) integrated DB using firebase firestore DB
- Exam Cell Management Link:** Developed a Exam Cell management & Reduces the work to college by 22% Tech-stack: HTML5, CSS, JavaScript, PHP, MySQLi, Bootstrap
- To-Do List and Task Scheduling Mobile App (Link) :** Implemented a mobile app for task scheduling helpful to listout all the To-Do things in a particular time/Day. Tech-stack: Flutter, Dart, Firebase Realtime Database, Firebase Auth
- College E-Library (Link):** Platform organised for college students access to the soft copies of notes & books through online & also learn and Teach there. Tech: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, jQuery, AJAX (September 2022)
- Additional Website Projects (Github):** Dermatology clinic Landing page (with Appointment Dashboard), Avoir(A College Services), Ecommerce(4 sites with different stacks), Portfolio.

CERTIFICATIONS

- Artificial Intelligence with Machine Learning:** 2-day Offline workshop in IISc Bangalore, Certificates on same Domain by CognitiveAi, IBM, Ignite Embedded Systems(attended 6-day Offline workshop), LinkedIn Learning
- AWS Cloud Computing Workshop:** Andhra Pradesh Skill Development Corporation — October 2024 (6-day Offline)
- React Essential Training (Linkedin Learnings):** Completed a LinkedIn Learning course in React Essential Training. Learn through the valuable resources which covers React.js, Frontend Development
- Additional certifications :** IT Essentials (Cisco), IoT and IIoT (NPTEL), Figma to WordPress (Udemy), Agile with AI (LinkedIn), HTML/CSS Forms (LinkedIn), React Training (LinkedIn), Power BI(LinkedIn)

LEADERSHIP & ACHIEVEMENTS

- Active GitHub contributor with 20+ commits across 10+ repositories, showcasing 6 full-stack projects
- Built and maintained 8+ user-facing websites, from UI implementation to deployment and performance optimization.
- Completed 5+ professional workshops (IISc, Zen AI, AWS, 3D Printing, Ethical Hacking), 2+ tech summits, and 10+ certifications
- Represented 3D printing startup called Inno3Dtech at 8+ technical events and exhibitions resulting in generated the leads and also conducted a 3-day Offline Workshop
